

## e-ISuite 2.3.2 Release Notes

**Date:** August 10, 2023  
**Version:** Apply to Site Version 2.3.0

### Description:

The purpose of this version is to update Reference Data with the new address for the USFS Admin Office for Payment and correct issues found in version 2.3.0. Please see the release summary for details. Additional information is also available on the e-ISuite Webpage:

<https://www.wildfire.gov/application/eisuite>

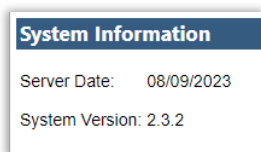

### **\*\*Important Things to Know Prior to Installing e-ISuite Site Update 2.3.2\*\***

- **These instructions only apply to the e-ISuite Site Version. If you are using e-ISuite Enterprise, you do not have to install anything as the update has already been applied to Enterprise.**
- Only apply this update to e-ISuite Site Version 2.3.0.
- Backup all databases before applying the patch.
- Close all browser windows and ensure there are no active connections to the e-ISuite Server.
- Users will need to follow their agency protocol for installing software.
- After installing the update, the System Version on the Home Page will show 2.3.2. This will be confirmation that the update is installed.
- Users **must** clear their browser cache after installing e-ISuite Site Update 2.3.2. Instructions for clearing the browser cache in the three main browsers can be found here: [Clearing Browser Caches](#)

### Steps for Installation

1. Download the Site 2.3.2 update from the Site Downloads page on the e-ISuite Webpage: <https://wildfire.gov/page/eisuite-site-downloads>
2. Install the update using your agency protocol for installing software.
3. Reboot your computer.
4. Clear your browser cache. See instructions above for clearing the browser caches.
5. Log into e-ISuite Site.

On the Home Page next to System Version, verify the version number displays as 2.3.2.

## e-ISuite 2.3.2 Release Summary

Functional Area	Summary
Check-In/Demob	A search feature was added to the Mobilization Jetport field on the Check-In Data screen and the Depart from Jetport field in Demob on the Air Travel Data screen.
IAP	Fixes issues with the re-order process on the ICS-203, 204, 205, 206 and 220 Forms
IAP	Added a line to the ICS-205 Form where the first page will accept 16 frequencies.
General	Fixes an issue where rostered overhead resources were not displaying in a tree view when using the Overhead filter.
Reference Data	Updated the address for the USFS Admin Office for Payment.
