

Requesting an iNAP User Account

Note: If you already have an existing Integrated National Application Portal (iNAP) account with access to another application, i.e., IROC, WFDSS, you do not need to request a new account. All you need to do is make an application access request for Enterprise-PROD.

To request an iNAP User Account

1. Go to the FAMAuth Portal: <https://famauth.wildfire.gov>
2. Find the e-ISuite **Enterprise application tile** and click the **Access** button.
3. Select “I do not have an iNAP profile yet” and select **Next**.

Link with iNAP

① As a final step in verifying your access to OIS-PROD, FAM-IM Security requires that your eAuthentication or your Login.gov account (or both) be linked to your iNAP profile.
