RAWS Location by Agency

[I]

Esri, TomTom, FAO, NOAA, USGS   Powered by Esri

A. Click the dropdown menu in the slicer to select and filter stations by agency.

B. Click the dropdown menu in the slicer to select and filter stations by state.

C. Click the dropdown menu in the slicer to select and filter stations by county.

D. Click the dropdown menu in the slicer to select and filter stations by station name.

E. The filtered count will update as you make your station selections. This will indicate how many stations there are within the data set you have selected.

F. Drag the bar to scroll through station information in the table. (You can also use the trackbar on your mouse to scroll through the table.)

G. Click the arrow to sort data in each column.

H. Click on the pie chart to select station information by agency. You can also click on the agency abbreviations to the right. The pie chart, map, filtered count, and table will update upon your selection.

I. Click the dots on the map to view individual stations.

J. Click and select any line in the table to view individual station information.
