Site 2.6.0 Installation Instructions

Step 1: YOU MUST UNINSTALL all previous versions of e-ISuite Site. Follow your agency protocol for uninstalling software.

Step 2: Users will be required to reboot their systems after uninstalling e-ISuite.

Step 3: Users must clear their browser cache before installing e-ISuite Site 2.6.0. Instructions for clearing browser cache in Google Chrome, Microsoft Edge and Firefox can be found here: Clearing Browser Caches

Step 4: Users may now proceed with the installation of e-ISuite Site 2.6.0. Follow your agency protocol for installing software.

Version 2.6.0 Release Summary

Functional Area	Summary
Admin Offices	The four federal standard admin offices have been moved to the top of the list when adding an Admin Office for Payment to a contractor agreement.
Check-In	City has been added as a search option in the Jetport field on the Check-In Data tab.
Check-In	The Last Work Day field has been added to the Check-In Data tab.
Check-In	Checkboxes for Extension Requested and Extension Received have been added to the Check-In Data tab.
Cost	Incident Total Cost has been added to the Cost Group Category Summary Graph.
Cost	The font has been increased on the Cost Group Category Summary Report.
Demob	The Tentative Release Date will automatically populate based on the First Work Day and Length of Assignment.
Financial Export (**Site Version Only**)	The file extension for financial export files will now end in ".enc" instead of ".fex". Those using Site will continue to upload files to the e-ISuite Data Repository. The only change to this process is you will no longer access the repository with a username and password. When you go to the repository website, it will redirect you to login through FAMAuth for authentication. You will no longer need to maintain a username/password for the e-ISuite Data Repository. **This applies only to users of Site. <u>If you are using Enterprise, you do not upload financial export files.</u> They will automatically be transmitted when you create the file.**
IAP	On the ICS-204 Form, the Branch and Division/Group fields will have dynamic font and will automatically adjust to the text entered. This is to address the issue with the font being too small/large.
Time	On the Post Time Screen, if there are enough postings to display a scroll bar, the system will automatically scroll to the most recent time posting.
Time	The system will now accept up to 30 daily rate time postings for contractor/cooperators.

Functional Area	Summary
Time	The system will now accept an entry of zero (0) for mileage time postings on contractor/cooperators.
Time	The system will now accept time postings for a resource with when the status is Demobed or Reassigned.
Training Specialist	CIMT has been added as an option to the incident complexity field in Training Specialist Settings.
Training Specialist	The Training Specialist will now display as an option for all incidents when there is an incident group.
