

2026 Spring Wildland Fire Interagency Data Summit

A collaboration between the Data Management Program
and NWCG Data Management Committee

Objective: To engage in open communications with the interagency wildland fire data management community for the purpose of discussing and planning interagency data management architecture and best practices, to work through data issues and areas of concern as they impact day-to-day and future data management operations and reviewing and consolidating enterprise application business plans.

Meeting Information:

Date: April 29 – 30, 2026

Location: NIFC Great Basin Training Center, Boise, ID
