Revision History

Rev #	Date	Author	Description
12.0	6/18/26	M. Keppel	Updated for FAMAuth Admin 2.18
11.0	8/21/25	M. Keppel	Updated for FAMAuth Admin 2.17
10.0	2/24/25	M. Keppel	Updated for FAMAuth Admin 2.16
9.0	8/26/24	M. Keppel	Updated for FAMAuth Admin 2.14
8.0	7/16/24	M. Roadifer	Updated for iNAP 2.13
7.0	5/6/24	M. Apicella	Updated with FAMAuth 2.9
6.0	3/22/24	M. Apicella	Updated for iNAP 2.12
5.0	1/12/24	J. Olson	Updated screen shots from FAMAuth 2.8, and iNAP 2.11.
4.0	4/4/23	M. Apicella	Updated with FAMAuth 2.6.
3.0	12/06/22	M. Apicella	Updated with FAMAuth 2.5.
2.0	10/27/22	M. Apicella	Updated with FAMAuth 2.4 and iNAP 2.7 changes.
1.2	8/16/22	J. Olson	Updated with FAMAuth 2.3 and iNAP 2.6 changes.
1.1	5/12/22	J. Olson	Updated with FAMAuth 2.2 changes.
1.0	2/24/2022	M. Roadifer	Reviewed and approved by Ryan Hunt.
0.2	2/22/2022	M. Roadifer	Minor updates from internal review.
0.1	2/21/2022	M. Roadifer	Added flow chart and various edits. Still draft.
0.0	2/18/2022	M. Apicella	Initial draft.

Purpose

The purpose of this document is to guide new users through the steps of accessing applications in the FAMAuth portal. The portal is accessible via desktop or mobile devices. The screenshots in this guide are from the desktop experience. Note the look on a mobile device may slightly differ.

Review the flowchart below to determine which section(s) of this guide apply to you as a user that is accessing a FAM application from the FAMAuth portal for the first time.

Guide

Section I: Login via eAuthentication

This section is for users that have a USDA or DOI PIV card.

Access FAMAuth Portal

1. Go to: <https://famauth.wildfire.gov>

Note: This will be your access point for your FAM application from now on so you can bookmark this page.

2. Select Government (eAuth)

An official website of the United States government Here's how you know

USDA U.S. FOREST SERVICE CARING FOR THE LAND AND SERVING PEOPLE Wildland Fire Application Portal - FAMAuth

To login to your Wildland Fire Application please select one of the two tiles, Login.gov or eAuthentication:

Public partners LOGIN.GOV
Login.gov is a service that offers secure and private online access to government programs through a Private Non-Federal account.

Government eAuth
eAuthentication is the system that allows users access to Wildland Fire Apps and Services using government clearance.

User notices
No notices today.

⚠ Upon logging in, you agree to the following information:
Unauthorized access to this United States Government Computer System and software is prohibited by Title 18, United States Code 1030.
This statute states that: Whoever knowingly, or intentionally accesses a computer without authorization or exceeds authorized access, and by means of such conduct, obtains, alters, damages, destroys, or discloses information or prevents authorized use of (data or a computer owned by or operated for) the Government of the United States shall be punished by a fine under this title or imprisonment for not more than 10 years, or both.

Select your agency

3. Select USDA or DOI in the 'Agency Selection' drop down

An official website of the United States government [Here's how you know](#) ▼

USDA eAuthentication
U.S. DEPARTMENT OF AGRICULTURE

eAuth

Agency Selection

Please select your agency to continue.

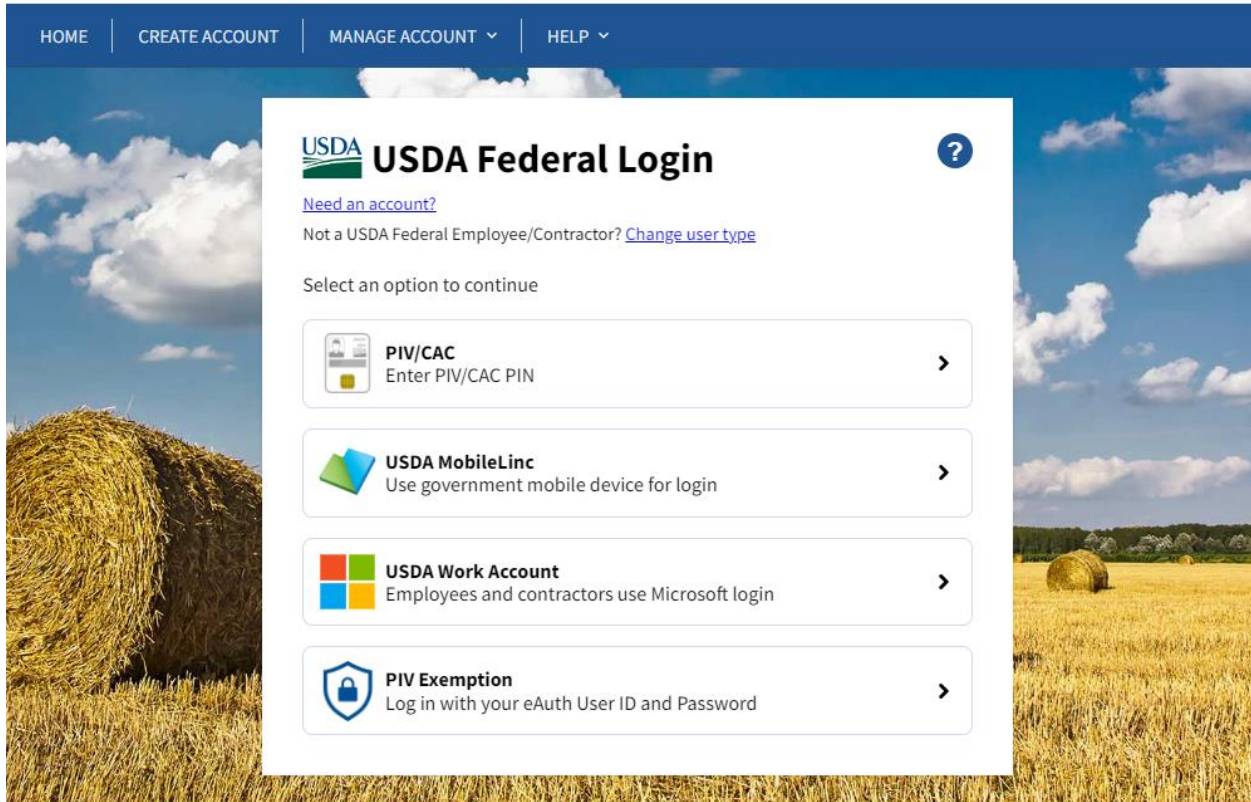

U.S. Department of Agriculture

Note: A selected agency automatically saves for future logins. To change an agency login, choose it from the list and click the Continue button to save.

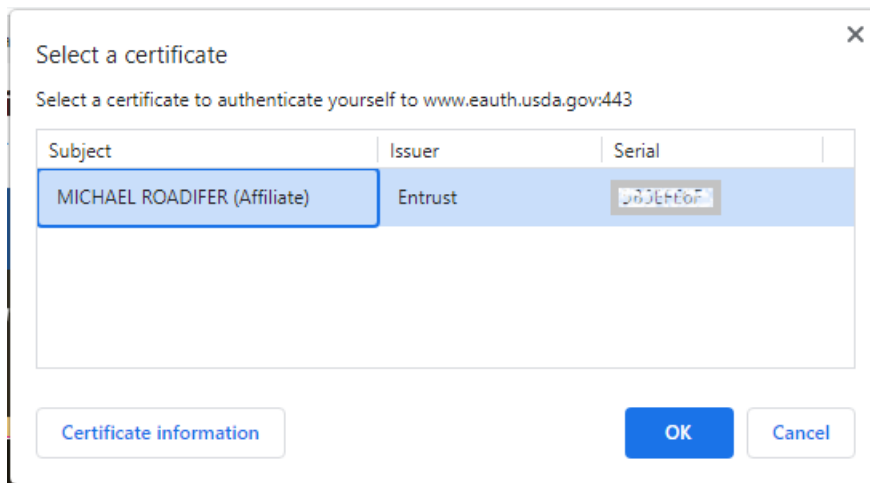

Continue

Enter your credentials

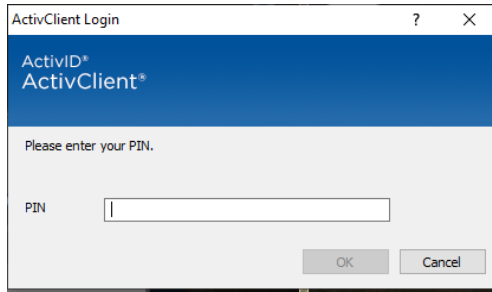

4. Select "PIV/CAC". Other options are available but this guide describes the use of a PIV card

a. Select the certificate

b. Enter the PIN

- c. The Wildland Fire Application Portal is displayed. Find the tile or logo for the FAM application you want to use, click the tile (or logo), and continue to next section of the flowchart

Section II: Login via Login.gov

This section is for users that do not have a USDA or DOI PIV card but do have a Login.gov account.

This guide assumes that your Login.gov account was setup using text message for the 2nd level authentication. Using other methods will result in different screens than shown below.

Access FAMAuth Portal

1. Go to: <https://famauth.wildfire.gov>

Note: This will be your access point for your FAM application from now on so you can bookmark this page.

2. Select Public Partners (Login.gov)

An official website of the United States government Here's how you know

USDA U.S. FOREST SERVICE CARING FOR THE LAND AND SERVING PEOPLE Wildland Fire Application Portal - FAMAuth

To login to your Wildland Fire Application please select one of the two tiles, Login.gov or eAuthentication:

Public partners LOGIN.GOV

Login.gov is a service that offers secure and private online access to government programs through a Private Non-Federal account.

Government eAuth

eAuthentication is the system that allows users access to Wildland Fire Apps and Services using government clearance.

User notices

You will see this page display. You have successfully connected your FAMAAuth user and Login.gov or eAuthentication account. This is a one-time process. The next time you click the “Access” button on the application tile you wish to use you will be redirected to the FAM application.

Please return to FAMAAuth to continue.

For increased security, please close your browser window.

Section V: Create FAMAAuth User

This section pertains only to FAM applications that use FAMAAuth for authorization of access and roles (see Appendix A – Applications Using FAMAAuth for Authorization).

This section is for users that do not have a user in FAMAAuth and are already able to login to the Wildland Fire Application Portal via either Login.gov or eAuthentication.

Request FAMAAuth user

1. On the Wildland Fire Application Portal Dashboard page, find the tile or logo for the FAM application you want to use and click on it.

Note: The OIS application is used as an example in this guide and is reflected in the screen shots to follow. Actual screens will reflect the application for the tile (or logo) you want to use.

The screenshot shows the Wildland Fire Application Portal - FAMAAuth interface. At the top, there are logos for USDA and U.S. Forest Service, along with the text 'Caring for the Land and Serving People'. The page is authenticated by eAuth, and the user is identified as Michael.Roadifer. The main content area is titled 'Wildland fire applications' and features a grid of application tiles. Each tile includes an icon, the application name, and a star icon. The tiles are arranged in two rows of four. A 'User notices' box on the right side of the dashboard indicates 'No notices today.'

Application Name	Icon	Star
Data Warehouse	Data Warehouse	★
DRONESIM	UAS Training, Flight Simulator	★

Review and accept rules of behavior

ⓘ In compliance with USDA and federal security policies, you must accept the following rules of behavior annually, prior to being granted access to FAMAuth applications. Please read and confirm your acceptance before proceeding.

Statement of Information Security Responsibilities for Associate Forest Service Users of FS Systems

I acknowledge that I understand and agree to comply with Forest Service (FS) and USDA information security policies and procedures, as well as with federal, state, and local laws. I understand that as an FS associate, I may not be entitled to the same limited personal use privileges as FS employees, and that my use of FS information systems and equipment is limited to that which is specifically described in my contract or other agreement with the FS.

I understand that my contract or other agreement may specify additional information security responsibilities or requirements, such as the need for a signed confidentiality statement. Key elements of Forest Service Manual (FSM) Chapter 6680, Security of Information, Information Systems, and Information Technology (both [6680-6682](#) and [6683-6684](#)), for which I am responsible, are summarized below. I understand and agree that I must periodically review the FSM Chapter 6680 for changes.

I am also responsible to:

I understand that any use of FS communications resources generally is not secure, that it is not private, and that it is not anonymous, and that system managers do employ monitoring tools to detect improper use. I understand that there is no right to privacy when using government information systems (logon warning banner).
