

U.S. FOREST SERVICE  
CARING FOR THE LAND AND SERVING PEOPLE

Wildland Fire Application Portal

Date: 03/02/2026

Version: 7.0

## To Edit/View your FAM Profile from the FAMAAuth Portal

1. From the Welcome, <username> menu, select the **Edit/view profile** menu item.
2. Once the **Edit profile screen** launches, the data available to be viewed/edited is provided on panels as follows:
  - a. View/edit **User information** (Job title, primary and alternate E-Mail(s), Office number, Primary affiliation, Company)
  - b. View **Linked information**
  - c. View/Request **Application access and role status** (includes Show history and Show Request application access and roles)
  - d. View **Rules of behavior** (Current type, Recent acceptance history)
  - e. If edits are made, use the **Save** button to commit the edits.

## To Request Application access and roles

1. There are three ways to launch the **Request application access and roles**:
  - a. As described in the section above, from the Welcome, <username> menu, select the **Edit/view profile** menu item, scroll to the **Application access and role status** panel and select the **Show Request application access and roles** button.
  - OR
  - b. From the Welcome, <username> menu, select the **Request app access and roles** menu item.
  - OR
  - c. Select the tile of the application you would like to access to. Note: you will not be able to request access to any other application, only access to the tile you selected.
2. Once the **Request application access and roles** panel launches, complete the following information:
  - a. Select the application from the **Application access** dropdown
  - b. Select the instance(s) from the **Instance(s)** checklist
  - c. If the application's roles are available to be requested, the **Request application roles** checklist will display. Use the checkboxes to select the appropriate roles. Note that not all applications make their roles available to be requested as part of this process.
  - d. There are two options for providing **Verification contact information**:
    - i. Select the **Use existing contact** checkbox to be presented with a dropdown list of previously used contacts and select one.
    - OR
    - ii. Enter the contact information for the person who can validate that you should have access to the selected application and instance(s).
  - e. If you need access to another application, use the **+** button to be presented with another instance of the **Application access, instance** and **contact** fields. Complete them as described in a-d. Reminder: this is only available if you selected the **Edit/view Profile** or **Request application access and roles** menu item.
  - f. Once done requesting all applicable applications, scroll down to use the **Save** button to create the requests.

Application access and role status			
Application	Instance	Application role	Status
DATAWH-Data Warehouse	DEV	General Report Reader	Requested
DATAWH-Data Warehouse	DEV	OIS Report Reader	Requested

Buttons: Show history, Show request application access and roles
