

To request an Org Role

1. Log into **FAMAuth** using your Login.gov or eAuth credentials.
2. From the **Welcome** menu, select **Request org roles**.

Screen Captures

To request an Org Role (cont.)

3. From the **Request org roles** screen, select the application instance to which the org roles will apply.
4. In the **Org unit** search box, start typing the name of the org unit into the type-ahead search field and select the org unit.
5. Click the **+** button to request an additional org role. Repeat step 3 for each additional org role you would like to request.
6. Once all org units have been selected, click the **Submit** button. Your request is submitted and will be reviewed by an Org unit manager.
