Step 2: Users will be required to reboot their systems after uninstalling e-ISuite.

Step 3: Users must clear their browser cache before installing e-ISuite Site 2.7.4.

Step 4: Users may now proceed with the installation of e-ISuite Site 2.7.4. Follow your agency protocol for installing software.

Site Version 2.7.4 Release Summary

Functional Area	Summary
IROC Import	Exclude button was removed from the Data Conflicts tab on the IROC import window. Users will no longer be able to exclude resources from an import. This is a temporary fix to address ongoing issues in the excluded resources area until a more long-term solution can be implemented.
